

UAW Local 602 Chairman's Comments

Sisters and Brothers,

900 Dealer Visit

Last week's 900 Dealer visit created very important PR which will help generate sales and help keep us at full production. The excitement and enthusiasm felt by our guests will continue as they promote our vehicles in the marketplace. Thanks to everyone who worked to make this event a success. I want to thank our Material Team for your patience with all those visitors in our aisles.

Saturday, October 16

Saturday, October 16th was never a scheduled production day, it was strictly a volunteer Saturday. It was cancelled due to a shortage of a part which we share with five other GM vehicles. Due to increased demand for our vehicles and other GM vehicles, the supplier of this part is experiencing difficulties meeting our needs.

Temporary Employees

On Thursday, October 7, I agreed to retain a portion of our Temporary Employees through the first quarter of 2011. I am waiting for approval from the National Parties.

Flex Employees

We continue to have dialog with management regarding Flex Employees.

Lake Orion

There has been much speculation and rumors regarding the recent press coverage of the Orion facility. All too often our instincts automatically assume the worst before we can analyze the facts. I will be attending Sub-Council meetings this week and will investigate the matter and have more accurate information for you when I return.

Lordstown

Lordstown Fabrication and Lordstown Assembly are preparing to take people. 100 at Fab and 275 at Assembly. If you are interested, submit your transfer to the National Employee Placement Center.

Go to: www.mygm.com

Log in with your GMID

Go to the myServices Tab

Go to Workplace Tab

Go to Employee Placement System (under Resources)

Remember YOU are the UAW. If you have concerns, please use the chain of communication that begins with your UAW Local 602 Committee Person, then your zone, and me. We are here to serve YOU.

In Solidarity,
Steve Bramos
UAW Local 602 Chairman
